The Colorado Department of Agriculture has contracted with a number of Ground Water Management Districts (GWMD) for the enforcement of the Colorado Chemigation Law. The permit fee for systems located within a contracting district is **thirty-five (\$35.00)** for each system and **thirty-five (\$35.00)** for those outside the boundaries of the cooperating GWMD.

Please list GWMD (if any) and county in which your irrigation system(s) are located along with the corresponding permit fee. Refer to backside for county code numbers and GWMD code numbers.

Legal description of injection site(s):	County Code #	GWMD Code #	Permit Fee
_____ ¼ of _____ Section _____ Township _____ Range	_____	_____	\$ _____
_____ ¼ of _____ Section _____ Township _____ Range	_____	_____	\$ _____

In compliance with the Colorado Chemigation Act Section 35-11-107, C.R.S., any irrigation distribution system through which chemigation is performed, except open discharge systems, shall be equipped with the backflow prevention devices specified below. The equipment shall be permanently installed in accordance with the manufacturer's specifications.

- |                                |  |                    |
|--------------------------------|--|--------------------|
| 1. Irrigation Line Check Valve | 2. Vacuum Relief Valve                 | 3. Inspection Port |
| 4. Low Pressure Drain          | 5. Chemical Injection Line Check Valve | 6. Interlock       |

The equipment required in the chemigation rules and regulations shall be maintained in working condition during all times of chemigation. When required, the equipment shall be repaired to its originally designed condition.
